

*We could have your
back too...*

If you are tired of your existing backup methods and lack confidence that you are truly protected in the event of a disaster then you need a solution you can trust - like Falconstor Continuous Data Protector (CDP):

- Restore business operations quickly and reliably
- Low-cost DR
- Eliminates reliance on tape and backup software
- Verify and ensure business continuity
- Accelerate tape backup by as much as 1000%

Sound trustworthy? That's because it is. And RDA Group is offering you the chance to test the net before you buy.
